

Cool Deck 70

1. PRODUCT DESCRIPTION

Ceratech's Cool Deck 70 is an emulsion of high grade acrylic resins in water. It is specially designed and formulated for conditions common to pool decks and walkway surfaces.

Cool Deck 70 dries quickly to yield an exceptionally high abrasion resistant coating that will stand up to most any heavy traffic areas. Due to Cool Deck 70 being 96.6% resistant against ultraviolet rays, colors last much longer versus conventional deck coatings.

Ceratech's Cool Deck 70 is environmentally safe and can be tinted to almost any color (pastels are recommended for best results).

2. OUTSTANDING FEATURES

Non-toxic	UV Resistant
Water Borne	Abrasion Resistant
Slip Resistant	Oil & Salt Resistant
Traffic Resistant	Dry Temperature to 180°F
Weather Resistant	Durable
Non-flammable	

3. INTENDED USES

Ceratech's Cool Deck 70 may be used on wood decks, pool areas, walkways, spas, fountains, cabanas, gazebos and many more areas.

4. APPLICATION

Surfaces should be clean, dry and sound. Existing surface dirt, oil, tar, grease and film should be removed as much as possible prior to application of Cool Deck 70.

It may be applied by brush, spray or roller. The ambient and surface temperatures must be 40°F or higher. Stir thoroughly before applying. See Application Specifications in the distributor manual for your particular application

5. THINNING

Thinning is not normally needed. However, if thinning becomes necessary, do not add more than 1/2 pint of water per gallon of coating.

6. COVERAGE

Normal application can vary depending upon ambient and surface temperatures (40°F or above), and surface porosity. 100 to 300 square feet per gallon on most surfaces. It will coat most concrete, brick, asphalt, Gunite, wood, and rock surfaces.

7. DRYING TIME

Depending on the ambient and surface temperatures, Cool Deck 70 can dry as fast as 15-30 minutes. Recoat in one hour. Cool Deck 70 **MUST BE APPLIED TO BASE SUBSTRATE.**

8. PRIMER

Ceratech's Cool Deck 70 is self-priming.

9. CAUTIONS AND WARNINGS

Do not take internally. Avoid contact with eyes. If solution does come in contact with eyes, flush immediately with water and contact a physician for medical attention.

Avoid prolonged contact with skin or breathing of spray mist. **KEEP OUT OF REACH OF CHILDREN. KEEP FROM FREEZING.**
